PERSONAL PROFILE

Enthusiastic engineering student with basic knowledge in coding and design, proficient in React, NextJs, HTML 5, CSS, JavaScript, and Java. I can learn new software and technologies quickly and also have the ability to work in teams by providing valuable support.

EDUCATION

2020 - present **B.Tech (CSE)** at Shri Vaishnav Institute of Technology and Science
2020 Class 12th CBSE Board
2018 Class 10th CBSE Board

WORK EXPERIENCE

Web Developer Intern — Next Gen Tech

April 2023 - present

Here I collaborated with a team of developers to design and implement responsive web interfaces using React, HTML, CSS, and JavaScript.

- Assisted in developing and maintaining company websites, ensuring cross-browser compatibility and mobile responsiveness.
- Worked on a client project to enhance the user interface and improve overall user experience, resulting in positive client feedback.
- Participated in daily stand-up meetings, providing updates on project progress and discussing potential solutions for technical challenges.

SOFTWARE PROJECTS

Reddit Clone

[Github Link](#)

- Developed a fully functional Reddit clone using Next.js, Chakra UI, and Firebase, demonstrating expertise in modern web development technologies.
- Implemented user authentication and authorization features using Firebase Authentication, ensuring secure access to the platform.

Speed Typing

[Github Link](#)

- Developed a comprehensive web-based typing speed application using React, incorporating advanced features such as accurate time tracking, precise accuracy calculation, and real-time progress indicators. Designed an intuitive and visually appealing user interface with customizable settings and diverse typing challenges to cater to different skill levels.

Word Counter App

[Github Link](#)

- Developed a Word Counter application using React, demonstrating proficiency in front-end development and state management.

SKILLS

Programming Java, ReactJs, NextJs , NodeJs, Html, Css , Js , python.
Soft Skills Time Management, Teamwork, Problem-solving, Documentation, Engaging Presentation.
Miscellaneous Linux, Shell (Bash/Zsh), Microsoft Office, Firebase, Git, Docker, Vercel, etc.
